

This Week

The median list price in CRESTED BUTTE, CO 81224 this week is \$1,185,000.

Demand measured by the Market Action Index is increasing and days-on-market is trending downward. Even as more properties come available, these are positive trends for the market.

Supply and Demand

- The Market Action Index has been trending lower for several weeks while prices have remained relatively stable. If inventory continues to grow relative to demand however, it is likely that we will see downward pressure on pricing.

The Market Action Index answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer.
